8	-
9	n/a

### Description

Clicking the logout button leaves us with a blank page without the map (on occasion)

"Welcome Back (@username)!" even when the person has logged in for the first time

Map sometimes blinked and doesn't show correctly

bus icon way too big to fit on screen

system (node server) crashes if user's twitter account does not have associated email

map loads twice everytime the website is loaded

bu shuttle route goes all the way to cambridge

vehicle directions not showing up properly

destination and user location text boxes should calculate duration, not simply distance

Severity (1-3)	Assigned	Completed date
1	Trey	12/4/2018
3	Harveen	12/5/2018
3	David	12/6/2018
